

Dual Clutch Transmission Oil 8100

Description

Superb high-performance oil based on HC-Synthesis oils. The use of an excellent additive combination with extremely shear-resistant viscosity index improvers, modern wear protection additives as well as stable friction agents achieves an excellent coupling performance. This hi-tech lubricant was developed specifically for the requirements of the increasingly prevalent dual clutch transmissions (DCT). Dual clutch transmission oil 8100 is especially also suited for dual clutch transmissions equipped with a shared oil supply for clutch, synchronisation, gear set and hydraulic control.

Properties

- optimum stability to aging
- excellent wear resistance
- outstanding resistance to oxidation
- very good low-temperature properties
